

RAFFLES SPA

WE ARE COMMITTED
TO PROVIDING DEDICATED
PERSONAL SERVICE IN
AN OASIS OF REFINED LUXURY

The magnificence and beauty of the lotus is admired by cultures across the world. Elegantly delicate at first glance, the flower's daily transformation is an inspiring symbol of revitalisation and raw natural strength. It begins as a bud of pure vitality beneath the water's surface. At sunrise, it breaks through into the fresh air, radiant in full bloom, then retires once more to the calm stillness of the water when night falls. It is this regenerative rise and retreat following the natural rhythm of the day that influences our vision for a Raffles Spa. We believe that a balance between exertion and relaxation is the key to achieving a feeling of inner tranquillity and rejuvenation. We are committed to providing dedicated personal service in an oasis of refined luxury.

Raffles Spa Journeys are a considered mix between traditional and local methods, each ready to be expertly personalised to ensure that your sensory escape is everything you hoped for and more. Our thoughtful and knowledgeable therapists will guide you on a journey to rediscover mental, physical and spiritual harmony, leaving you feeling enlivened and transformed.

HYDROTHERAPY WELLNESS EXPERIENCES

Steam Room

Maintained at 42-45°C, the humid aromatic heat experience is highly beneficial for those who suffer from asthma and bronchitis, as it opens up the breathing passages and alleviates congestion. We recommend that a session lasts 10-15 minutes and that you keep your body well-hydrated afterwards. Humid heats are especially beneficial before or after a massage treatment to increase circulation.

Sauna

Maintained between 85-110°C this dry heat soothes and warms the muscles, relieving tension from your body and minimising joint pain. This is especially beneficial for those who suffer from illnesses such as arthritis, painful migraines and headaches, or as a way of warming the body after an intense workout or treating a common cold. Dry heat is recommended for 10-15 minutes daily and it is important to ensure that your body is kept well-hydrated afterwards.

Jacuzzi Wellness

Maintained at 38-40°C, warm water, or "hydro" therapy can promote relaxation, pain relief and improved sleeping habits as the heat, buoyancy and massage work together to clear your mind, reduce stress and soothe overworked muscles. Heat improves circulation and warms muscles and joints. Buoyancy lifts the pressure of weight from joints and muscles. Hydromassage stimulates muscles, healing and soothing soreness, which also helps to ease pain surrounding joints.

Outdoor Pool

Our 35-metre long outdoor pool provides a peaceful environment in which to revitalise yourself with an energising swim or to simply relax with a refreshing drink.
